Education

Madhav Institute of Technology and Science, Gwalior

Master of Computer Applications (MCA)

2023 – 2025

Radha Krishna Mahavidyalaya (Jiwaji University), Gwalior

Bachelor of Science (PCM)

2020 – 2023

Guidance Public H.S School

HSC (PCM)

2019 – 2020

Guidance Public H.S School

SSC

2017 – 2018

Experience

Replaiance.ai

Software Developer Intern

Remote

March 2026 – June 2026

- Built and optimized a **RAG (Retrieval-Augmented Generation)** pipeline using **LangChain**, combining chunking strategy improvements, embedding tuning, and prompt refinement to enhance retrieval quality.
- Developed and integrated **backend APIs** using **FastAPI** and **Python** to support AI-powered features and data ingestion workflows.
- Designed and implemented **responsive frontend interfaces** using React.js, enabling seamless user interaction with AI components.
- Collaborated on **end-to-end feature development** spanning vector search, document parsing and dynamic UI rendering.

Numeric Infosystem Private Limited

Junior Software Engineer

Onsite

June 2025 – Feb 2026

- Developing and maintaining high-quality software applications.
- Collaborating with cross-functional teams to ensure timely project delivery.
- Participating in the full software development lifecycle, including design, coding, and deployment.
- Troubleshooting and resolving software issues to enhance application performance.
- Adhering to coding standards and best practices to maintain code efficiency and scalability.

Projects

Opportura 🌐 🌐 | React.js, Node.js, Express.js, MySQL, Material UI, OpenAI/HuggingFace APIs

- Developed a full-stack **job portal platform** connecting companies with job seekers using React.js, Node.js, Express.js, and MySQL.
- Implemented **role-based access control** for admins and companies, including job posting and application management modules.
- Integrated an **AI-based smart filtering system** using LLM APIs to match candidate resumes with job descriptions and provide personalized job recommendations.
- Built responsive and user-friendly UI components with React.js, Material UI, Bootstrap, HTML, and CSS while integrating REST APIs for seamless frontend-backend communication.

TallyBuddy 🌐 | React.js, Node.js, Express.js, MySQL, HTML, CSS

- Developed a web-based stock, supplier, invoice, and transaction management system with responsive dashboards and API integration.
- Implemented real-time stock alerts, improved dashboard navigation, and integrated APIs for seamless data management.
- Added AI-powered demand forecasting for low-stock prediction and an LLM-based invoice reader for automatic supplier detail extraction.
- Role:** Frontend Developer – Built responsive UI, integrated APIs, added real-time updates, and enhanced dashboard usability.

CineNova 🎬 | *React.js, Firebase, Tailwind CSS, Material UI, OpenAI API, TMDB API*

- Developed a Netflix-like movie streaming platform with a modern and responsive UI using React.js and Firebase for scalability and real-time updates.
- Integrated TMDB API for live movie data, smart search functionality, and category-wise movie browsing.
- Added an AI-powered recommendation system using GPT prompts to provide personalized movie suggestions based on watch history and user inputs.
- Implemented Firebase authentication, Firestore database, and responsive UI components using Tailwind CSS and Material UI.
- **Role:** Full Stack Developer – Designed and implemented responsive UI with Tailwind + Material UI, set up Firebase authentication & Firestore database, integrated TMDB API for movie data, and added GPT-based intelligent search and personalized recommendations.

RestroBuddy 🍽️ | *React.js, HTML, CSS, Bootstrap, Material UI*

- Built a responsive **landing page** with smooth animations and call-to-action sections to improve user engagement and first impressions.
- Developed **menu and order pages** where customers can browse food items by category and place orders in a clean, intuitive interface.
- Implemented a **table reservation feature** allowing customers to book tables by selecting date, time, and number of guests with form validation.
- Created **About and Contact pages** with restaurant details and an inquiry form for easy customer communication.
- Ensured **fully responsive design** with smooth CSS animations across mobile, tablet, and desktop screens using Bootstrap.
- **Role:** Frontend Developer – Designed and developed all UI pages using React.js with focus on responsiveness, animations, and seamless user experience.

Technical Skills

Programming Languages: C, C++, JavaScript, Python

Frontend Technologies: React.js, HTML, CSS, Bootstrap, Material UI, Tailwind CSS

Backend Technologies: Node.js, Express.js, RESTful APIs, Axios

Databases: MySQL, MongoDB

Tools and IDEs: Visual Studio Code, Postman, Git, GitHub

Web Services Integration: JSON, REST API, Redux

Cloud: Render, Vercel
